

Adding Digioh to your Miva site gives you a full suite of eCommerce conversion tools, including:

- Pop-Ups to Capture Email
- Abandon Browse/Cart
- Exit-Intent
- Free Shipping Banners
- One-Time-Use Coupons
- Out-of-Stock Notifications

**Follow the steps below to add Digioh to Miva.**

1. If you don't already have one, create your Digioh account. Then, click "Setup Instructions."

The screenshot shows the Digioh account dashboard. At the top, there's a navigation bar with tabs: Boxes, Analytics, A/B Testing, Integrations, Files, Help, and Admin. The user's name, Rishi Shah, is in the top right. Below the navigation bar is a table of conversion tools. The table has columns for ID, Name, Conditions, Integrations, Variations, and Actions. A sidebar menu is open on the right, listing various account settings and tools. The 'Setup Instructions' option is highlighted with a red arrow. A tooltip points to the 'Setup Instructions' option, stating: 'This is where you can find the JavaScript tag and instructions to deploy on your site(s).'

ID	Name	Conditions	Integrations	Variations	Actions
211021	Dynamic Offer	<a href="#">Edit</a>	<a href="#">Add</a>	<a href="#">Add</a>	<a href="#">Edit</a> <a href="#">View</a> <a href="#">Add</a> <a href="#">Copy</a> <a href="#">Share</a> <a href="#">Delete</a>

This is where you can find the JavaScript tag and instructions to deploy on your site(s).

## 2. Copy the Digioh installation JavaScript.

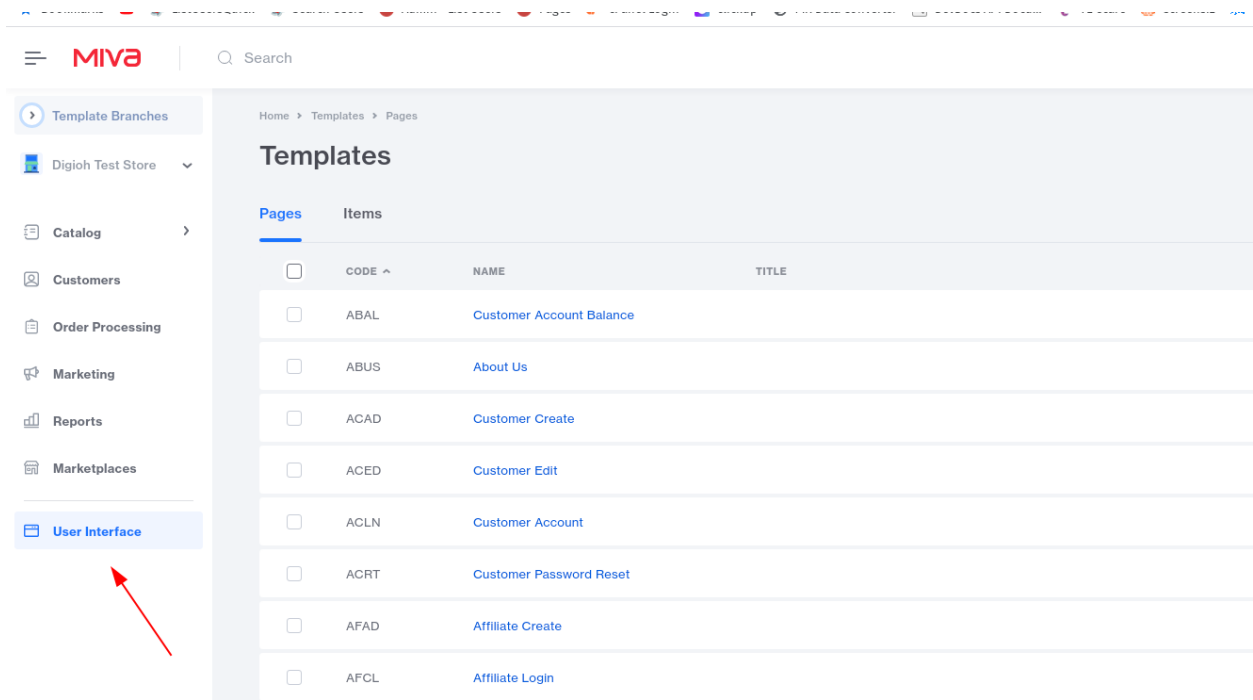

- If you are using Wordpress, or another Content Management System, have your webmaster insert the code snippet in your website's template or wrapper file.
- We are fully integrated with Wordpress, BigCommerce, Yahoo Stores, Squarespace, Google Tag Manager and 30+ other platforms.
- [Email installation instructions to your website developer →](#)

**Copy This**

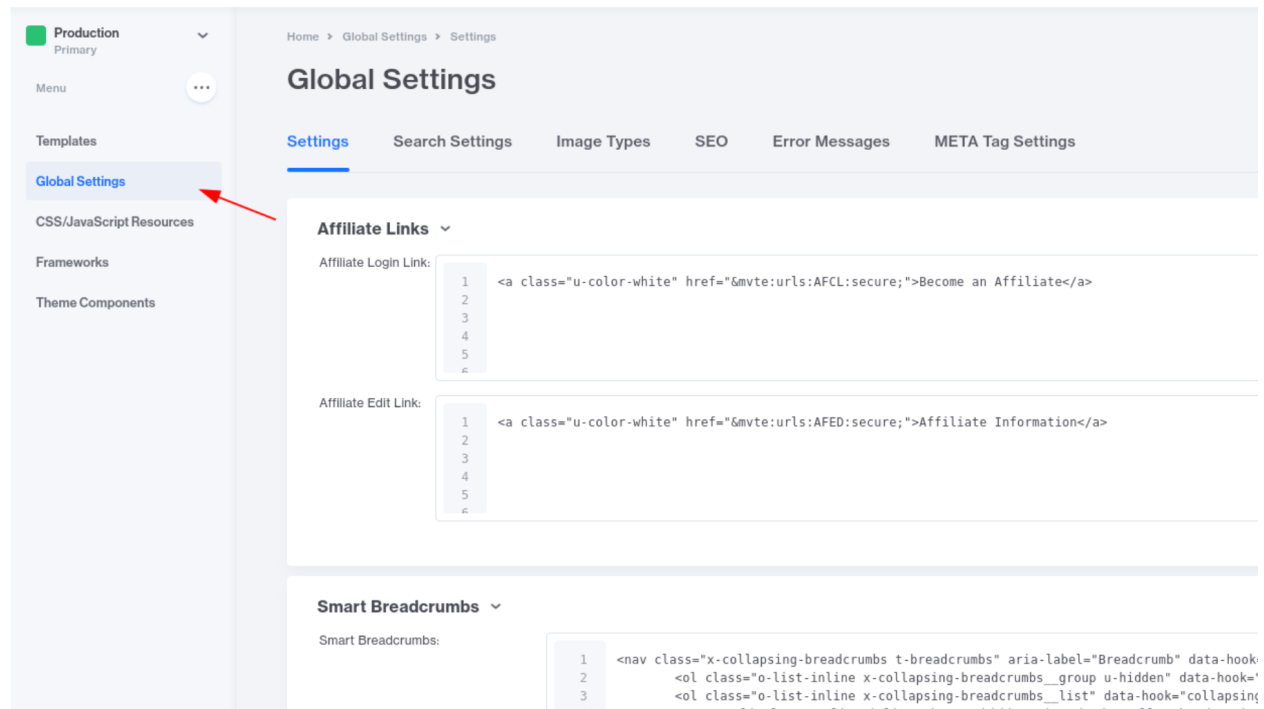

Inline Embed Code

```
<!--START Lightbox Javascript-->
<script async type='text/javascript' src='https://www.lightboxcdn.com/vendor/2d0[REDACTED]79f/lightbox_inline.js'></script>
<!--END Lightbox Javascript-->
```

## 3. Log into the Miva user interface.

4.Go to Miva Global Settings.

5. Scroll down to the HEAD Tag Content box, then paste in the Digioh JavaScript from Step #2.
