

# Miva Merchant 9

DONATION MANAGER - INSTALLATION

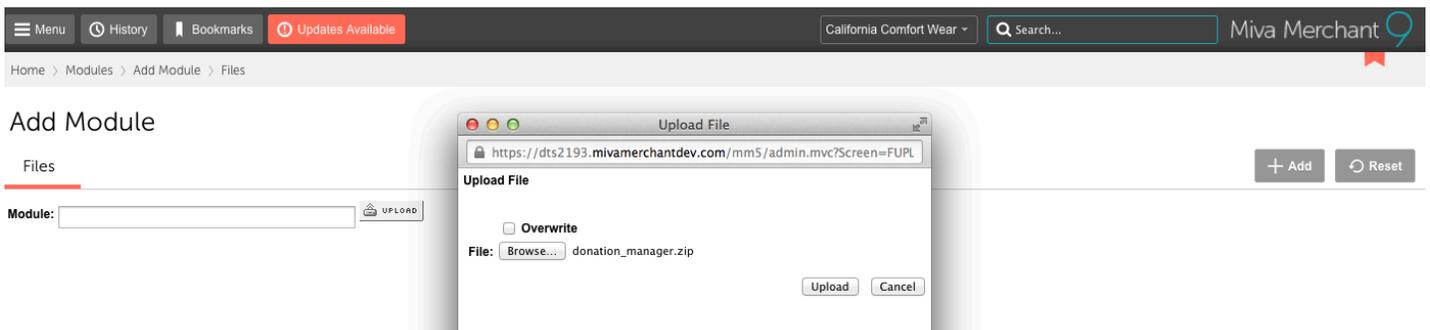

Updated January 2015

# Section 1 - Installing the Donation Manager Module

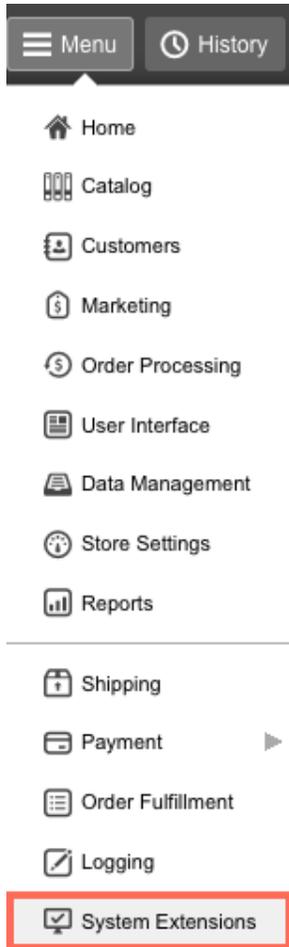

1. Click on your left drop down menu and select “Modules.”

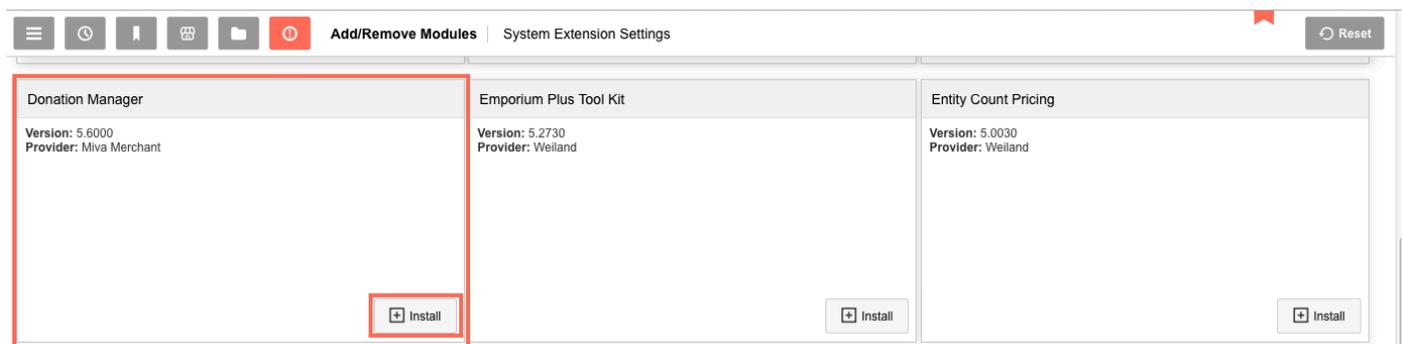

2. Click the “Add” Button and upload the “donation\_manager.mvc” module

3. Go to the drop down menu, select “System Extension Settings.”

4. Find the “Donation Manager” module and click on the install button.

5. Here's the screen with options to customize your module. You can either assign the donation to a product, or you can make your own and name it whatever you like; donation, contribution, amount, etc. For this sample, we named it "donate."

The screenshot shows the Miva Merchant interface. At the top, there's a navigation bar with 'Menu', 'History', 'Bookmarks', 'Updates Available', 'California Wear', and a search bar. Below that, the breadcrumb trail reads 'Home > System Extension Settings > Donation Manager'. The main heading is 'System Extension Settings'. Underneath, there are tabs for 'Donation Manager' and 'Add/Remove Modules', along with 'Update' and 'Reset' buttons. The settings form includes: 'Product Code' (donate), 'Donation Description' (Make a Donation), and 'Attribute Code' (donate). Below the form is a table with columns: 'Remove', 'Attribute Option Code', 'Attribute Option Prompt', 'Default Option', and 'ADD OPTION (+)'. The table is currently empty.

6. View Donation Screen in Runtime

The screenshot shows the runtime view of the donation screen. It features a text input field with the label 'Make a Donation: \$' and the value '14.00'. Below the input field is a large red button with the text 'Add to Cart'.

7. You have the option of adding a drop down menu with the attribute template. Simply click "Add Attribute" and then enter your selections. Once you have the entries, you can view it on the live store by clicking "View Donation Screen in Runtime."

This screenshot shows the 'System Extension Settings' page for the 'Donation Manager' module, specifically the 'Add/Remove Modules' tab. The settings form at the top is identical to the previous screenshot. Below the form, the table is populated with charity options. The table has columns for 'Attribute Option Code', 'Attribute Option Prompt', 'Default Option', and 'ADD OPTION (+)'. The entries are:

Attribute Option Code	Attribute Option Prompt	Default Option	ADD OPTION (+)
Charity	Please Select Charity		EDIT HERE
redcross	Red Cross	✓	EDIT HERE
childrenshosp	Children's Hospital		EDIT HERE
salvationarmy	Salvation Army		EDIT HERE

---

Here's how it looks in the store:

Make a Donation: \$ 14.00

Select One:

Children's Hospital

Please Select Charity

Red Cross

Children's Hospital

Salvation Army
