Installing the Booc ReadyTheme

These instructions are for installing the Booc ReadyTheme to a brand new store. If you have an existing store, please contact support.
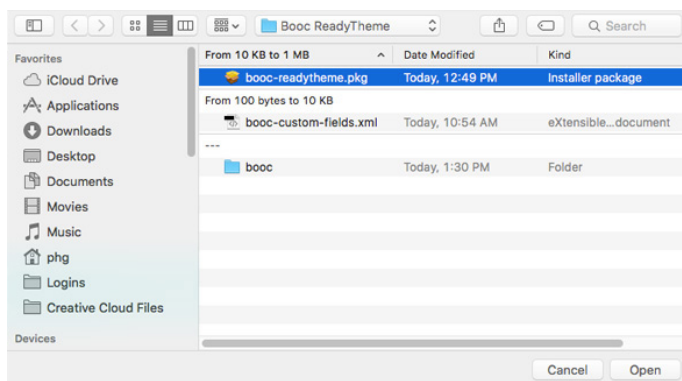

1. **Once you download the Booc ReadyTheme from the Miva App Store you'll want to install it into your store. Go to your downloads file, open the readytheme folder, and select the .pkg file, then select "Choose.**

2. **Go to your Miva 9 Admin, click on Menu, scroll down and select "User Interface."**
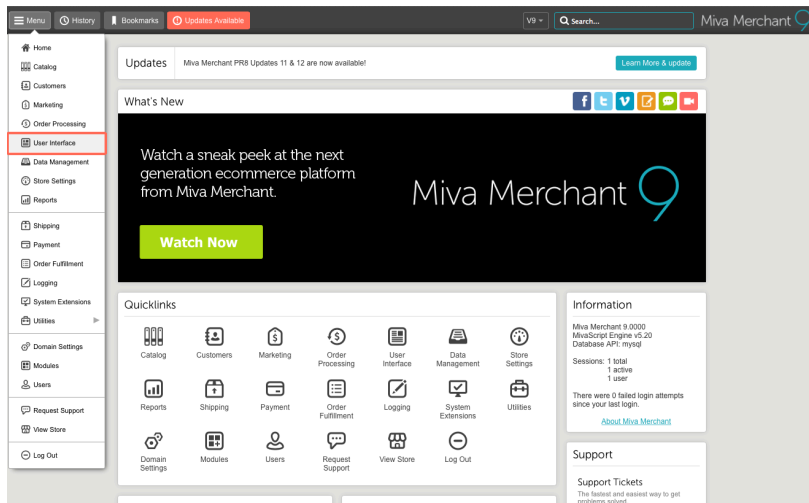

3. **Select Frameworks, click on the upload button, select "Upload-Overwrite."**
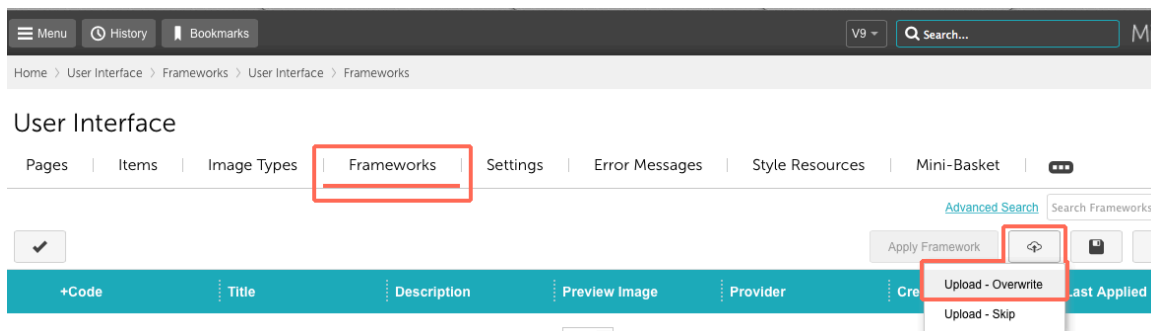

4. **Go to your downloads file, open the readytheme folder, and select the .pkg file, click the "Open" button, then select "Choose."**

5. Click on your ReadyTheme, Click "Apply Framework."
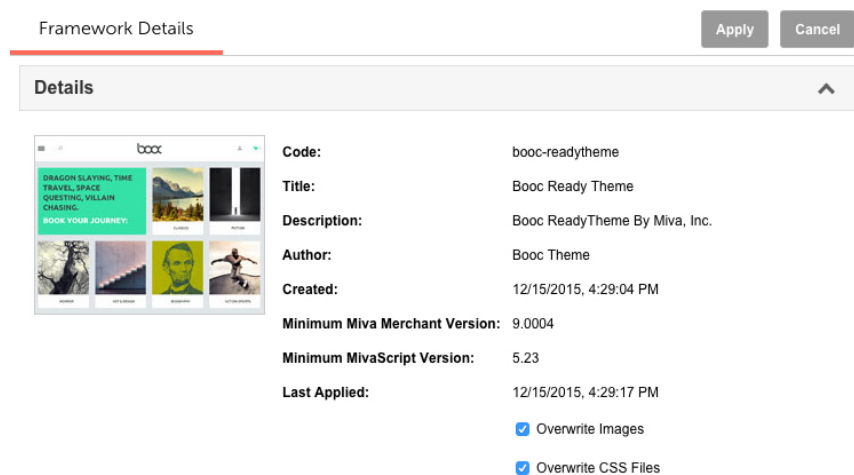

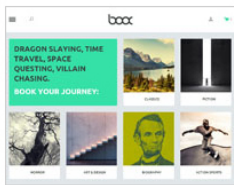

6. Click the two boxes, "Overwrite Images" and "Overwrite CSS Files", then click "Apply."

7. A secondary warning page will come up, go ahead and hit "Apply" one more time.

Apply Framework: booc-readytheme

Apply Framework **booc-readytheme**?

Warning: This process will overwrite your Page Templates, Components and all associated data as described in the Framework.

Install XML file for Product Custom Fields

The Booc Theme, in addition to the pkg file, also has an excel file that needs to be uploaded and installed. This excel file will allow you to add custom fields (product flags) to your products such as "Free Shipping," "New," or "On Sale." There's also a custom field for checkout called "Order Instructions." Here's how to install this file:

Click on "Menu," then "Data Management." Click "Import/Export"and select "Import Data and Settings in XML Provisioning Format."

Update Category Tree Images

NOT PART OF THE READYTHEME

First you must have a category set up to link to. To set up categories, go to "Menu," "Catalog," then "Categories." Here you can open current categories, edit them, delete them or create new ones.

This will also create the Category Tree in the Category Pages.

To place an image for the category, click on the category of your choice, then the "Open Category" icon. Under "Category Tree" you'll see a field called "Tree Image." This is where you want to upload your category image to. Click "Update" when you are done.

Note: All category tree images should be sized at 400x300 for best results.
Update Category Tree Title Image

NOT PART OF THE READYTHEME

The Category pages in the Booc ReadyTheme have Category Title Images as seen below.
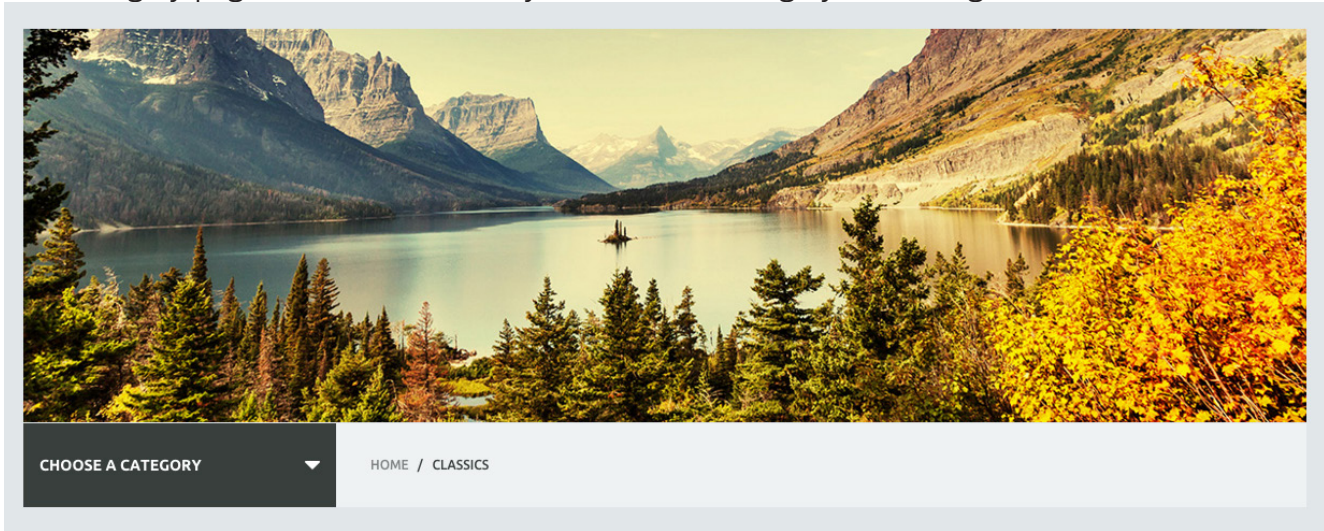

To update, change or remove these images:
1. Go to "Menu," "Catalog," and then click on "Categories"
2. Click on a category (in this sample we are using "Classics"
3. Click on the "Open Category" icon

4. Under the "Category Title" field, click the "Upload" button, navigate to where your new image is, select it, then click "Upload" and finish by clicking the turquoise "Update" button in the top right.

Note: All header images should be sized 1194 x 366 for best results.

Update Visual Navigation Menu

NOT PART OF THE READYTHEME

Now that you have your categories set up, you'll want to go add them to your Visual Navigation Menu.

1. Click on "Menu"
2. Scroll down to "Utilities"
3. Click on the arrow to get to "ReadyTheme"
4. Click on the "Navigation Sets" Tab.
5. Click on "SFNT: Visual Navigation"
6. Click on the page icon with the arrow coming out of the top right corner
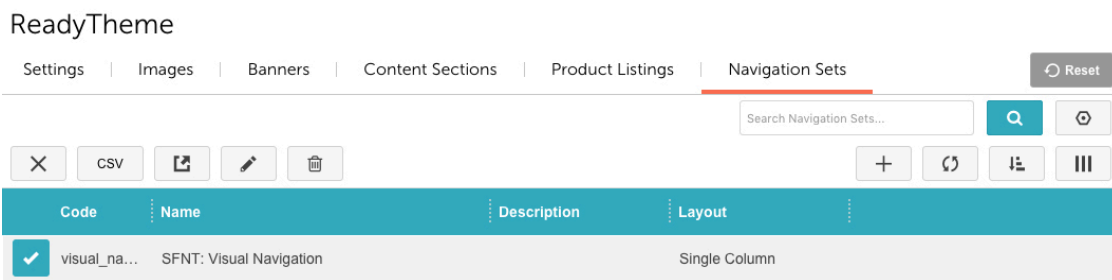

3. To edit a category name, click on one of the Titles and then click the pencil tool.

To add a new category title, click the "Add Navigation Item" button and fill out the fields provided.
Updating Images - "Main Hero" Images

UNDER IMAGES TAB

ReadyTheme

| Settings | Images | Banners | Content Sections | Product Listings | Navigation Sets |

1. Select "Storefront Hero Image"
2. Click the pencil icon to edit/replace the image

3. Under the "Image" field, click "Select Image" and upload your new image
4. Update your "Alt Text" as well as any other appropriate fields
5. Click "Save"

If you wanted to add a third hero image you can click the "+" icon.
Fill out all of the fields and upload your image.

Note: You'll need to copy the code that's right below the "name" field. See highlighted area below.

Once you have that copied, you'll want to go to the "Content Section," click on "Hero Image" then click the pencil tool. You'll want to paste the code under the second slider code, then hit "Save."
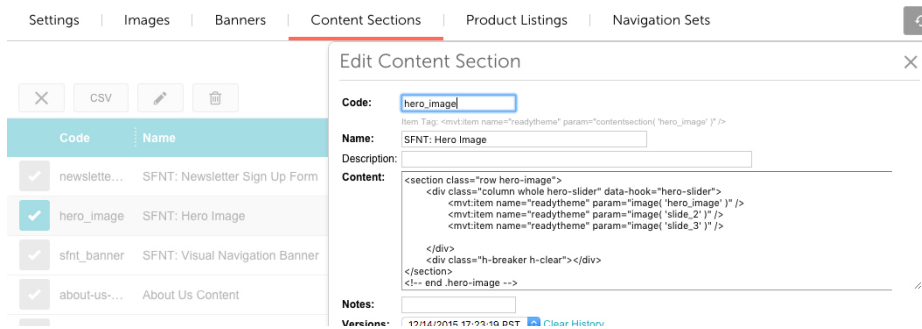

Note: The Hero Images should be sized at 1224 x 660 for best results.
