RETRO READYTHEME CUSTOMIZATION

Updated November 12, 2014

MIV3

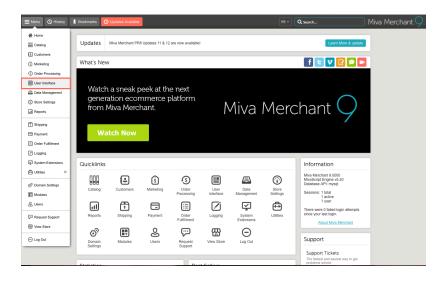

Installing the Retro ReadyTheme

These instructions are for installing a ReadyTheme to a brand new store. If you have an existing store, please contact support.

1. Got to http://www.miva.com/mm5/merchant.mvc?Screen=readythemes&Store_Code=MIVA and down-load the theme you want. For this guide we are downloading and installing the Retro ReadyTheme.

BVIM		Q	24/7 SUPPC	RT - 800.608.6482
	Small Business Edition Enterprise	Features	Signup	Do More 🔻
	Retro ReadyTheme			
	A Bootstrap based theme designed for stores with a small product line. Get all your products front and center right on the homepage.			

2. Go to your Miva 9 Admin, click on Menu, scroll down and select "User Interface."

3. Select Frameworks, click on the upload button, select "Upload-Overwrite."

E Menu O History	Bookmarks			V9 ·	- Q Search	Miv
Home $>$ User Interface $>$	Frameworks > User Interfa	ce > Frameworks				
User Interfac	-	Frameworks Se	ettings Error Messages	Style Resources	Mini-Basket	
					Advanced Search	Search Frameworks
*					Apply Framework	
+Code	Title	Description	Preview Image	Provider	Cre Upload - Overwrite	ast Applied.
			and the second sec		Upload - Skip	

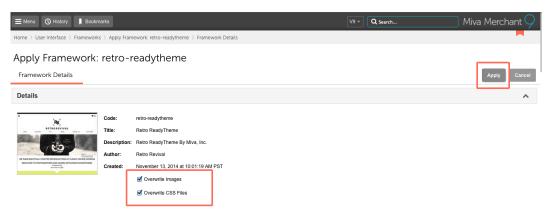

4. Go to your downloads file, open the readytheme folder, and select the .pkg file, then select "Choose."

≡ Menu 🔇 H		₩ ▼) (metro-readytheme +)	Q		
Home > User Inter	FAVORITES	Name	Date Modified	' Size	Kind
Home y ober men	🚐 All My Files	😞 retro-readytheme.pkg	Today, 10:10 AM	1.2 MB	Installackage

retro-readytheme	Retro ReadyTheme	Retro ReadyTheme B…		Retro Revival	11-13-2014

6. Click the two boxes, "Overwrite Images" and "Overwrite CSS Files", then click "Apply."

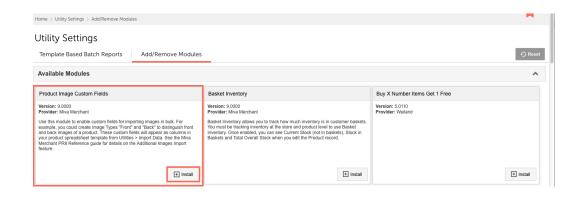

7. A secondary warning page will come up, go ahead and hit "Apply" one more time.

≡ Menu O History I Bookmarks	V9 -	Q Search] Miva Merchant $igodot$
Home $>$ User Interface $>$ Frameworks $>$ Apply Framework: retro-readytheme $>$ Framework Details $>$ Apply Framework: retro-readytheme			
Apply Framework: retro-readytheme			Apply Cancel
Apply Framework retro-readytheme? Warning: This process will overwrite your Page Templates, Components and all associated data as described in the Framework.			

8. Install Product Image Custom Fields

This may or might not need to be done, depending on future updates for this theme. Go to Utlities, Add/Remove Modules and see if "Product Image Custom Fields" is in the "Available Modules" area. If it is, click on the install button. If it's down below under "Installed Modules" then you can skip to the next step.

Install XML file for Product Custom Fields

The Suivant Theme, in addition to the pkg file, also has an excel file that needs to be uploaded and installed. This excel file will allow you to add custom fields (product flags) to your products such as "Sale," "Hot," or "New." Here's how to install this file:

9. Go to Menu, then scroll down to "Data Management"

10. Under "Import/Export" and Select "Import Data and Settings in XML Provisioning Format"

E Menu O History
Home $>$ Data Management $>$ Import/Export
Data Management
Import/Export Import Settings Database Tools
Import Data
Add/Update Categories from CSV
Add/Update Products from CSV
Update Product Inventory from CSV
Add/Update Customers from CSV
Import Data and Settings in XML Provisioning Format

11. Upload "custom-fields.xml" from your downloads file
