Nift

NIft Integration Source Files

Install Docs

1. Download Module from App Store

2. Install in Store

3. Under Utilities, add path to logo and click Get Started

4. On INVC, assign the nift item to the page (This gets created on install)

5. Add this tag to the INVC <head> tag: <mvt:item name="nift" param="invc" />

Scheduled Task

There are two schedueld task that automatically gets created on install.

1. Refresh Access Token

2. Refresh Referral Code

INVC Cookie

The Nift popup will only show once per every 30 days for a customer. This is done by a cookie being

set called "niftshow" It can be manually deleted for testing purposes.
